United States Patent Office

December 3 2004

In reply to your letter post marked 11/04/2004 as you have advised me, I did specify the elected version of my invention.

Claim is limited to three, also sequence of sub sections were changed, but no new material was added.

I deleted all drawings and any reference in the claim and in the description related to the vertical turbine driven nose hair system. The elected water turbine driven shaver is the FIG. 1 on sheet one, however different physical embodiment of the invention may not be limited to the current drawings.

Thank you,

Zoltan Egeresi
